Sir:

In response to the Office Action dated July 20, 1993,
please amend the above-identified application as follows:

IN THE CLAIMS

SUB (31)

1. (Amended) A T.V. module adapted for use in
conjunction with a remotely controllable associated unit,
comprising:

a remote-control signal transmitter adapted to transmit
signals representative of control codes to the associated unit;

means adapted to analyze the operation of said
associated unit in response to said control codes;

a memory operative to store remote-control codes; and

[an electronic controller operative to cause the
transmitter to transmit test control-code signals to the
associated unit; analyze the resulting operation of the associated
unit in order to determine control codes for the associated unit;
